Medications

Data Abstraction Instructions:

Record for each medication if it was administered Pre, During, and Post, if it was Contraindicated, and also if it was Not Given. Record for each medication if it was prescribed Home (at admission), Discharge.

Selections:

- Home(Medications at Admission) = Prescribed medications the patient was taking prior to the current episode of care.
- Pre = Medications administered from admission, or previous procedure, to the start of the current procedure.
- Within 24 hours=administered within 24 hours of PCI procedure start and/or during PCI procedure.
- During =Medications administered during the time the patient was in the procedure area for the current procedure. (while patient is physically in the PCI lab, PVI lab, or operating room).
- Post = Medications administered from the time the patient has left the procedure area through discharge, or next procedure, whichever is first.
- Discharge = Prescribed medications on which the patient was discharged.
 - Pt. deceased or discharge location(NCDR V5 #10110) "other acute care hospital", AMA, or (NCDR V5 #10115) Hospice Care
- Contraindicated = History of allergy/reaction/sensitivity/intolerance to medication that is documented in the patient record or a physician dictation which states a contraindication.
- Not Given = If the drug was not administered to the patient at any time.

Supporting Definitions:

Vascular surgery discharge medications should not be entered on a patient that dies prior to discharge.

For Combination Therapy record as follows:

In case of combination drugs individual components should be recorded unless the specific option is available to select.

e.g., zestoretic is a combination of lisinopril and hydrochlorothiazide (HCTZ); this should be recorded as ACE inhibitor and diuretic.

e.g. entresto is a combination of sacubitril and valsartan, since entresto is a specific selection, this should be recorded as entresto.

NOTE: Medication lists provided are not all inclusive.

Required:

Yes

ACE Inhibitor

Data Abstraction Instructions:

Record if prescribed, not prescribed, or contraindicated.

Selections:

- Prescribed
- Not Prescribed
- Contraindicated

Supporting Definitions:

Benazepril
Lotensin

Benazepril + HCTZ *
Lotensin HCT

Benazepril + Amlodipine *

Hydration

Data Abstraction Instructions:

Record given, not given and the number of ml/cc consumed (oral) or administered (IV).

Oral (PO) Hydration:

Pre includes any documented fluid intake consumed by the patient within 6 hours prior to procedure start.

Post includes any documented fluid intake consumed by the patient within 6 hours after procedure completion.

Intravenous (IV) Hydration:

Pre includes any documented normal saline and/or sodium bicarb IV infusion administered within 6 hours prior to procedure start.

During includes any documented normal saline and/or sodium bicarb IV infusion administered during the procedure.

Post includes any documented normal saline and/or sodium bicarb IV infusion administered within 6 hours after procedure end.

Selections:

Oral:

- Given
 - 6hr pre ml or N/A
 - 6hr post ml or N/A
- Not Given

Intravenous:

- Given
 - 6hr pre ml or N/A
 - During ml or N/A
 - 6hr post ml or N/A
- Not given

Required:

Yes

Minimum:

1

Maximum:

15000

IV Heparin/Unfractionated Heparin

Data Abstraction Instructions:

Record if Heparin was administered IV, IC or IA (bolus during the procedure) to the patient after procedure completion. Do not include low dose (unfractionated) heparin given SQ for DVT prophylaxis.

BMC2 PCI IS ONLY CAPTURING THE POST TIMEFRAME FOR THIS FIELD.

Selections:

- Given
- Not Given

Required:

Yes

IV Nitroglycerin

Data Abstraction Instructions:

Record if IV Nitroglycerin was administered.

BMC2 PCI IS ONLY CAPTURING THE POST TIMEFRAME FOR THIS MEDICATION

PCI: Please only include nitroglycerine administered intravenously via continuous drip.

Selections:

- Given
- Not Given

Required:

Yes

IV Vasopressors

Data Abstraction Instructions:

Record if administered.

PCI: Excluded boluses doses administered only capture infusions administered.

Selections:

- Given
 - If given, choose all that apply.
- Not Given

Agent:

- Dopamine
- Norepinephrine
- Phenylephrine
- Other

Supporting Definitions:

Norepinephrine
Epinephrine
Dopamine
Phenylephrine
Vasopressin
Dobutamine
Giapreza (angiotensin II)

Required:

Yes

Icosapent Ethyl

Data Abstraction Instructions:

Record if Prescribed, Not Prescribed.

Selections:

At Discharge:

- Prescribed
- Not Prescribed

Supporting Definitions:

Icosapent Ethyl

Vascepa

Required:

Yes

NSAID
