

2024 Blue Cross Blue Shield of Michigan Cardiovascular Consortium (BMC2)  
 Collaborative Quality Initiative Performance Index Scorecard  
 YEAR 2 Vascular Surgery only sites

Measure #	Weight	Measure Description	VS points
1	25	<b>Meeting Participation - Clinician Lead</b>	
		2 Meetings (attendance at the collaborative-wide meeting earns 1 additional extra credit point)	25
		1 Meeting	15
		Did not participate	0
2	25	<b>Data Coordinator Expectations</b>	
		Meets all expectations	25
		Meets most expectations	15
		Does not meet expectations	0
3	20	<b>Physicians Complete Cross Site Review of Assigned Cases for Procedural Indications and Technical Quality</b>	
		Submitted reviews for 100% of cases	20
		Submitted reviews for <100% of cases	0
4	10	<b>Vascular Surgery Performance Goal - Documentation of EVAR* imaging performed on the 1-year follow up form</b>	
		≥80%	10
		70% - <80%	5
		<70%	0
5	10	<b>Vascular Surgery Performance Goal - Duplex ultrasound completed prior to asymptomatic carotid endarterectomy</b>	
		≥90%	10
		80% - <90%	5
		<80%	0
6	10	<b>Vascular Surgery Performance Goal - Vein mapping completed before elective lower extremity open bypass</b>	
		≥50%	10
		40% - <50%	5
		<40%	0
<b>Sites select two measures for scoring from measures 4, 5, 6</b>			
7	10	<b>Vascular Surgery Performance Goal - Smokers receive smoking cessation treatment prior to discharge</b>	
		≥25%	10
		20% - <25%	5
		<20%	0
11	0	Extra credit: 1 point per approved activity (maximum of 5 points) Examples include: Physician attendance at the collaborative-wide meeting, presentation at a meeting, engagement in a work group/task force, referral of an engaged patient advisor, special initiatives, TBD	1-5

\*EVAR = endovascular aneurysm repair
