

2028 CQI VBR Measure Scorecard

PCI & MISHC

VBR Measurement Period: Specified in measure
 Aggregation Level: Hospital
 VBR Reimbursement Period: 03/01/2028 - 02/28/2029

Measure #	Weight	Measure Description	Points	
1	11%	MISHC Participation Measure: Physician representative engagement per site in 2027 Measurement period: 1/1/2027 - 12/31/2027		
		Attend 1 Virtual Meeting and 1 In-Person Collaborative Meeting	11	
		Attend only In-person Collaborative Meeting	7	
		Attend only 2 Virtual Meetings (no in person Collaborative meeting)	5	
		Attend 1 Virtual Meeting	3	
		No physician attendance at meetings	0	
MISHC PERFORMANCE MEASURES PICK 3 of 4 FROM MEASURES 2, 3, 4, and 5				
2	45%	MISHC Performance Measure: Increase TAVR KCCQ at 1 Year Aggregation level: Hospital Measurement period: 10/1/2026 - 6/30/2027		
		>=85%	15	
		75% - 84% OR increase of 10 percentage points in all cases from Q4 YTD 2026	5	
		<=74%	0	
3		MISHC Performance Measure: Increase TAVR NYHA documented at 1 Year Aggregation level: Hospital Measurement period: 10/1/2026 - 6/30/2027		
		>=85%	15	
		75% - 84% OR increase of 10 percentage points in all cases from Q4 YTD 2026	5	
		<=74%	0	
4		MISHC Performance Measure: Increase MTEER Refractory to GDMT documentation for functional only Measurement period: 10/1/2026 - 6/30/2027		
		>=85%	15	
		<=84%	0	
5		MISHC Performance Measure: Site Specific QI Project Measurement period: 1/1/27 - 6/30/2027		
		Differs by site	15	
		Differs by site	0	

7	14%	PCI Performance Tobacco Cessation Measure Aggregation level: Hospital Measurement period: 10/1/2026 - 6/30/2027 For PCI patients (discharges) who identify as current smokers during measurement period, documentation of 2+ nicotine cessation intervention post-event (within 90 days) provided by the PCI clinical care team member at a rate of 50% of current smokers.	
		>=50% of current smokers received 2+ qualifying pre/post-event (within 90 days) nicotine cessation intervention	14
		40% - 49% of current smokers received 2+ qualifying pre/post-event (within 90 days) nicotine cessation intervention [OR >= 10% increase across all patients from 2026]	7
		>=80% of current smokers received 1+ qualifying pre/post-event (within 90 days) nicotine cessation intervention	5
		<=39% of current smokers received 2+ qualifying pre/post-event (within 90 days) nicotine cessation intervention or <=79% of current smokers received 1+ qualifying pre/post-event (within 90 days) nicotine cessation intervention	0
13	10%	PCI Performance: Increase the percent of appropriate PCIs performed, based on the BMC2 on-going peer review process. Measurement period: Spring 2027 peer review cycle	
		>=90% of the reviewed cases with a decision to proceed to PCI within the two highest appropriateness categories	10
		<=89% of the reviewed cases with a decision to proceed to PCI within the two highest appropriateness categories	0
14	10%	PCI Performance: Improve the overall intervention quality as assessed in the BMC2 on-going peer review process. Measurement Period: Spring 2027 peer review cycle	
		Fewer than 10% of reviews should be rated as sub-optimal.	10
		Fewer than 9% of reviews should be rated as sub-optimal.	0
15	10%	PCI Participation: Submit internal peer review cases and attest to discussing the internal review with colleagues Measurement Period: Spring 2027 peer review cycle	
		Submission of >=80% of internal reviews, completion of reviews and attestation form	10
		Submission of <=79% of internal reviews, completion of reviews and attestation form	0

12	0%	Extra credit: 1 point per approved activity (maximum of 10 points) Participation extra credit - (maximum of 8 points): 1 point Physician attendance at the in-person collaborative-wide meeting - MISHC sites must have both an Interventional Cardiologist and Surgeon at the in-person meeting to earn 1 extra credit point. 1 point per presentation at a meeting 1 point per membership in a work group/committee/task force 1 point per referral of an engaged patient advisor 1+ points per engagement on special participation initiatives - TBD Performance extra credit - (maximum of 2 points): 1 point per engagement on special performance initiatives - TBD Measurement period: 1/1/2027 - 12/31/2027	1-10
Total Points Possible			100
Measure, Points and VBR Percentage Eligibility Criteria			
VBR Eligibility Scale for CQIs offering up to 107% (must include tobacco cessation measure)			Points Threshold
			Points Threshold to Meet 102% VBR eligibility
			>= 40-51
			Points Threshold to Meet 103% VBR eligibility
			>= 52-63
			Points Threshold to Meet 104% VBR Eligibility
			>= 64-75
			Points Threshold to Meet 105% VBR eligibility
			>= 76-87
			Points Threshold to Meet 107% VBR eligibility
			>= 88-100
