

2028 CQI VBR Measure Scorecard

BMC2 PCI Only

VBR Measurement Period: Specified in measure
 Aggregation Level: Hospital
 VBR Reimbursement Period: 03/01/2028 - 02/28/2029

Measure #	Weight	Measure Description	Points
7	14%	PCI Performance Tobacco Cessation Measure Aggregation level: Hospital Measurement period: 10/1/2026 - 6/30/2027 For PCI patients (discharges) who identify as current smokers during measurement period, documentation of 2+ nicotine cessation intervention post-event (within 90 days) provided by the PCI clinical care team member at a rate of 50% of current smokers.	
		>=50% of current smokers received 2+ qualifying pre/post-event (within 90 days) nicotine cessation intervention	14
		40% - 49% of current smokers received 2+ qualifying pre/post-event (within 90 days) nicotine cessation intervention [OR >= 10% increase across all patients from 2026]	7
		>=80% of current smokers received 1+ qualifying pre/post-event (within 90 days) nicotine cessation intervention	5
		<=39% of current smokers received 2+ qualifying pre/post-event (within 90 days) nicotine cessation intervention or <=79% of current smokers received 1+ qualifying pre/post-event (within 90 days) nicotine cessation intervention	0
13	30%	PCI Performance: Increase the percent of appropriate PCIs performed, based on the BMC2 on-going peer review process. Measurement period: Spring 2027 peer review cycle	
		>=90% of the reviewed cases with a decision to proceed to PCI within the two highest appropriateness categories	30
		<=89% of the reviewed cases with a decision to proceed to PCI within the two highest appropriateness categories	0
14	30%	PCI Performance: Improve the overall intervention quality as assessed in the BMC2 on-going peer review process. Measurement Period: Spring 2027 peer review cycle	
		Fewer than 10% of reviews should be rated as sub-optimal.	30
		Fewer than 9% of reviews should be rated as sub-optimal.	0

15	26%	PCI Participation: Submit internal peer review cases and attest to discussing the internal review with colleagues Measurement Period: Spring 2027 peer review cycle	
		Submission of >=80% of internal reviews, completion of reviews and attestation form	26
		Submission of <=79% of internal reviews, completion of reviews and attestation form	0
12	0%	Extra credit: 1 point per approved activity (maximum of 10 points) Participation extra credit - (maximum of 8 points): 1 point Physician attendance at the in-person collaborative-wide meeting 1 point per presentation at a meeting 1 point per membership in a work group/committee/task force 1 point per referral of an engaged patient advisor 1+ points per engagement on special participation initiatives - TBD Performance extra credit - (maximum of 2 points): 1 point per engagement on special performance initiatives - TBD Measurement period: 1/1/2027 - 12/31/2027	1-10
Total Points Possible			100
Measure, Points and VBR Percentage Eligibility Criteria			
VBR Eligibility Scale for CQIs offering up to 105% (must include tobacco cessation measure)			Points Threshold
Points Threshold to Meet 102% VBR eligibility			> 40-54
Points Threshold to Meet 103% VBR eligibility			>= 55 - 69
Points Threshold to Meet 104% VBR Eligibility			>= 70-84
Points Threshold to Meet 105% VBR eligibility			>= 85 - 100
